Basecamp

RE: Programmer

Dear Hiring Manager,

As an intermediate Software Engineer, the posting for Programmer with Basecamp piqued my interest. When reviewing the job requirements and your website, I was excited to see that my qualifications and personal traits align with your needs and mission.

I bring a set of talents that I believe will be valuable to Basecamp. During my 2+ years of experience, I have honed the skills necessary to succeed in this position. I honed my abilities in agile development, ruby on rails, python and javascript, providing a solid foundation for the Programmer position. My collaboration, people-centric nature, and eagerness to please have afforded me excellent communication skills.

Please review my resume for a complete collection of my work history. I am very excited by this career opportunity and am interested in meeting with you to discuss further. I'm hoping to discuss how my personality and work history fit the Programmer role.

Thank you for your time and consideration.

Sincerely,

Daniel Shotonwa
